## 303FUTSAL / 2024 PROGRAM OVERVIEW

**303FUTSAL programs, training sessions and games focus on attack-oriented FUTSAL play**, technical mastery and advanced player development. All training sessions, games and activities are co-developed and run by experienced technical partners and licensed player-coaches who work with players to improve their skills and enhance their enjoyment of the game.

As we enter our 12th futsal season we thank the many coaches, players, families and local futsal advocates who have led and supported local futsal growth and player development. Dozens of former and current 303FUTSAL players are now playing soccer and futsal at the collegiate and professional level and credit their winter futsal "break" as an ongoing and critical part of their soccer journey.

**303FUTSAL offers a "club-neutral" futsal / soccer training environment** to promote the international culture and technical benefits of futsal and downplay school / club soccer team dynamics. Here are a few important player development goals we ask players and families to focus on as we go:

- Enjoy futsal as a fun, "total player" recovery period and complementary training resource.
- Make new friends and be ready to play with diverse groups of "rotating" teammates.
- Stay focused, dynamic and open to a variety of coaching styles and training techniques.

**DEVELOPMENTAL CHALLENGE:** One of our themes for the winter futsal training program includes "3 QUESTIONS" for ongoing self-improvement, player development and reflection: 1. What went RIGHT?, 2. What went WRONG?, and 3. How can I get BETTER?
